

WRD-X

Mid gauge cutting line, all applications, great balance in high tensile strength and cutting ability, great reusability rate.

Technical Specifications:

- Up to 7 removals per length
- Tensile strength: 320 Lb
- Diameter: 0.85mm
- Solid braiding construction
- Good salvage rate
- Heavy duty abrasion resistance coating

Available Sizes:

- **X-96** - 315 feet (96m) - 14 pre-marked lengths
- **XN-96** - 315 feet (96m) - no pre-marked lengths
- **X-48** - 157.5 feet (48m) - 7 pre-marked lengths
- **X-C** - 22.5 feet (6.85m) - 1 length
